PROFESSIONAL SUMMARY

iOS Developer with 4.8 years of experience designing, developing, and maintaining enterprise and consumer mobile applications using Swift, SwiftUI, and UIKit. Experienced in building scalable MVVM-based applications with offline-first architecture, REST API integration, SQLite, Core Data, Firebase, and third-party SDKs. Strong knowledge of Swift Concurrency, GCD, ARC, Auto Layout, and performance optimization using Instruments. Delivered multiple production applications from development through App Store release while collaborating in Agile teams. Passionate about writing clean, reusable, and maintainable code, mentoring teammates, and delivering high-quality user experiences.

SKILLS

Programming Languages

Swift

UI Frameworks

SwiftUI, UIKit, Combine, Cocoa Touch

Architecture & Design Patterns

MVVM, MVC, Clean Architecture, SOLID Principles, Dependency Injection (Swinject)

iOS Development

App Lifecycle, Auto Layout, Programmatic UI, Storyboards & XIBs, Size Classes, Dynamic Type, Custom Views, Reusable Components, Responsive UI, Figma-to-Code

Concurrency & Performance

Swift Concurrency (async/await), GCD, OperationQueue, ARC, Instruments, Performance Optimization

Networking

REST APIs, URLSession, Alamofire, Codable, JSON Parsing, Multipart Upload, Error Handling, ReachabilitySwift

Database & Offline Storage

SQLite, Core Data, UserDefaults, Offline Data Synchronization, Caching

Third-Party SDKs

Firebase, APNs, Google Maps, Zego cloud, Kingfisher, XCGLogger

Testing & Debugging

Unit Testing, Memory Leak Detection, Debugging, Instruments

Development Tools

Xcode, Postman, Charles Proxy, SourceTree

Methodologies

Agile, Scrum, Code Reviews, Jira

PROFESSIONAL EXPERIENCE

C-Square Info Solutions Ltd, iOS Developer

04/2024 – Present

Kochi, Kerala

- Develop and maintain enterprise iOS applications using Swift, SwiftUI, and UIKit.
- Design scalable features following MVVM and Clean Architecture principles.
- Build offline-first functionality using SQLite and background synchronization.
- Integrate REST APIs, Firebase, Push Notifications, Google Maps, and third-party SDKs.
- Improve application performance using GCD, Instruments, and memory optimization techniques.
- Perform code reviews, mentor junior developers, and collaborate with QA, backend, and product teams.
- Publish builds through TestFlight and support App Store releases.

Datasense Technologies, iOS Developer

04/2023 – 03/2024

Coimbatore, Tamilnadu

- Developed production-ready iOS applications using Swift and UIKit.
- Created reusable UI components to improve development efficiency.
- Integrated REST APIs using URLSession and Alamofire.
- Implemented JSON parsing with Codable and robust error handling.
- Fixed performance bottlenecks and resolved production issues.
- Participated in sprint planning, code reviews, and Agile ceremonies.

App Innovation Technologies (P) Ltd, iOS Fresher

11/2021 – 04/2023

Coimbatore, Tamilnadu

- Built and maintained multiple iOS applications using Swift and UIKit.
- Designed offline data storage using SQLite and Core Data.
- Integrated Google Maps, Firebase, chat SDKs, and real-time communication services.
- Implemented responsive UI with Auto Layout and reusable custom views.
- Collaborated with cross-functional teams to deliver production-ready applications.
- Performed debugging, testing, and App Store deployment support.

KEY PROJECTS

SFA 360, An offline medical sales system focused on enhancing sales processes

- Developed an offline-first sales application using Swift, UIKit, SwiftUI, and SQLite.
- Implemented background data synchronization, GPS tracking, and REST API integration.
- Optimized application performance and improved data synchronization reliability.

App Store:

<https://apps.apple.com/app/id6453795530>

Live-Doc, A document uploader designed to handle various file formats

- Developed secure document upload and management features.
- Implemented file handling, offline support, encryption, and performance optimization.

App Store:

<https://apps.apple.com/app/id6504079182>

LiveOrder-csquare, Enterprise Order Management System

- Developed a real-time order management application using Swift, UIKit, and MVVM.
- Integrated REST APIs, WebSockets, and Swift Concurrency (async/await) for efficient order processing and live status updates.

App Store:

<https://apps.apple.com/app/id1660025243>

EDUCATION

B.Sc. Computer Science, Madras University

2018 – 2021
Chennai, Tamilnadu

CERTIFICATES

- GenAI for Mobile App Developers (iOS, Android)
- SQL: A Practical Introduction for Querying Databases
- GenAI for Data Analysts
