

Mohanraj Gopi

iOS Developer

✉ mohanrajiosdev7@gmail.com ☎ +91 9360036367 📍 Chennai, India

PROFILE

Results-driven **iOS Developer** with strong expertise in **Swift, SwiftUI, UIKit, and mobile application architecture**. Proven track record of building scalable, user-focused iPhone applications within Agile environments. Skilled in **REST API integration, offline database development (SQLite), MVVM/MVC architecture**, and clean coding practices. Passionate about delivering high-quality apps and contributing to team success through continuous learning and mentorship.

ROLES AND RESPONSIBILITIES

- Developed iOS applications using Swift and SwiftUI.
- Collaborated in Agile teams for project delivery.
- Integrated APIs for enhanced app functionality.
- Conducted testing and debugging for bug-free applications.
- Contributed to code reviews and stay updated on iOS trends.

TECHNICAL SKILLS

Languages & Frameworks: — Swift, SwiftUI, UIKit, iPhone SDK, Cocoa Framework, **Tools:** — Xcode, Git, App Store Connect, **Architectures:** — MVC, MVVM, SOLID principles, Clean Coding, **APIs & Services:** — REST APIs, Third-Party APIs, Firebase Cloud Messaging, Twilio SDK, Agora, **Databases:** — SQLite, **Others:** — Integration Testing, Debugging, Mobile Architecture, Agile Methodologies

PROFESSIONAL EXPERIENCE

C-Square Info Solutions Ltd, iOS Developer

04/2024 – Present | Kochi, Kerala

- Lead development and maintenance of advanced iOS applications using Swift and SwiftUI.
- Guide and mentor junior developers, ensuring adherence to coding standards and scalability principles.
- Participate in architecture decision-making, improving code structure and reusability.
- Collaborate with product managers and designers to deliver intuitive and impactful user experiences.
- Conduct detailed code reviews and foster a culture of continuous improvement.

Datasense Technologies, iOS Developer

03/2023 – 04/2024

Coimbatore, Tamilnadu

- Developed and optimized iOS applications using Swift, SwiftUI, and UIKit.
- Integrated REST APIs and third-party services to enhance functionality.
- Debugged and resolved issues to ensure smooth and bug-free releases.
- Supported Agile development cycles with feature implementation and sprint planning.
- Contributed to code reviews and maintained software quality standards.

- Built and maintained multiple iOS applications with a focus on performance and usability.
- Integrated Twilio, Google Maps, and real-time chat SDKs for dynamic app experiences.
- Designed efficient SQLite database models for offline-capable applications.
- Implemented clean architecture patterns and followed SOLID principles.
- Performed integration testing and collaborated across teams to deliver high-quality applications.

PROJECTS

SFA 360, *Offline Medical Sales System*

- Developed a fully offline platform using a local **SQLite** database.
- Enabled order management, product catalogs, inventory tracking, and analytics without internet dependency.
- Supported pharmaceutical and medical equipment workflows.

Hero Cycles, *Multi-level Sales Application*

- Developed a hierarchical sales app for Dealers, Area Sales Managers, Regional Managers, and National Managers.
- Implemented order placement, tracking, inventory checks, and dashboards for multiple user roles.
- Improved communication and productivity across the sales ecosystem.

Live-Doc, *Document Uploader*

- Developed **Live-Doc**, a QR-authenticated document management app with both online and offline upload capability.
- Implemented **secure QR-based login** to validate users before allowing document operations.
- Designed an **offline-first flow** where documents are stored locally when offline and automatically synced when connectivity is restored.
- Built a **sync engine** to validate, upload, and update document status in the background, ensuring a smooth user experience.
- Optimized the app for **unreliable network conditions**, reducing upload failures and user friction.

Qliq1's, *Social Networking Application*

Integrated **Twilio SDK**, **OpenWeather API**, **NewsData API**, **Agora SDK**, and **FCM** for an end-to-end social experience.

CALLPROOFPLUS, *Sales CRM*

- Led full lifecycle development of the CRM application.
- Built frontend screens and backend data handling using **SQLite**.
- Integrated **Twilio** for voice calls and **ZegoCloud** for real-time chat.
- Implemented Google Maps for location-based features and collaborated across teams for on-time delivery.

Pranayama App, *Breathing exercise app*

- Built breathing exercise app focused on wellness.
- Integrated **Apple In-App Payments** and designed beginner-friendly modules.
- Contributed to UI/UX and feature development to improve user health experience.

BISTRA, *Restaurant Ecosystem (Admin, Waiter & User Apps)*

- Built an end-to-end restaurant solution with separate apps for Admin, Waiter, and Customers.

- Integrated **Push Notifications**, **Alamofire**, **SwiftEntryKit**, **iCarousel**, **Kingfisher**, and QR generator features.

EDUCATION

Madras University, *B.Sc. Computer Science* 2018 – 2021 | Chennai, Tamilnadu

Govt Boys Hr. Sec. School, *HSC* 2016 – 2018 | Podaturpet, Tamilnadu

Govt Boys Hr. Sec. School, *SSLC* 2016 | Kesavaraja Kuppam, Tamilnadu

LANGUAGES

Tamil, English, Malayalam
